

Description

NuSkin is a water based, spray applied, quick cure, seamless, rubber based waterproofing, tanking, roofing and vapour barrier membrane. NuSkin can be applied over new or existing membranes. Typical usage includes water tanks, planters, podiums and decks, below ground tanking, as well as many other uses. The NuSkin system is very versatile.

Preparation

Surfaces must be cleaned, dried and free of moisture on and beneath the surface. Remove dust, dirt, oil, loose granules and any other foreign contaminants. Surfaces with mildew growth should be cleaned with a bleach solution then rinsed thoroughly. Rusted metal should be cleaned with a wire brush and treated with an anti-rust treatment. Pressure washing surface is recommended for best results. It is recommended to repair all holes, leaks and cracks with NP 1 or NP 7 Elastomagic Cement and NP F Polyester Fabric in the Three Course Installation Method. Acceptance of the substrate is the sole decision of the owner or appointed representative.

Application

For exterior use only. Protective clothing and eyewear should be used during application of this product. Apply on a warm sunny day preferably in the morning to provide maximum cure time. Temperatures should be 10°C and rising. All necessary equipment needed to spray NuSkin will be approved and supplied by Neptune Pacific Ltd. Stir thoroughly before and during application to achieve a uniform consistency. Apply with professional spray equipment supplied by Neptune Pacific Ltd. Apply one coat of NuSkin at a rate of 2.08 litres per square meters or as indicated by system specification. Relative humidity will affect drying/curing time.

Clean-up

Soap and warm water.

Chemical Ingredients

Titanium Dioxide	CAS#13463-67-7
TWA	10 mg/M3

Precautions

DO NOT STORE AT TEMPERATURES BELOW 2°C OR ABOVE 49°C. DO NOT ALLOW TO FREEZE. DO NOT THIN. Do not allow barrel to tumble as this may loosen the lid and cause leakage or spillage. Drying time may vary depending upon wet film thickness, temperature, humidity and air movement.

Caution

KEEP OUT OF REACH OF CHILDREN. Close container after each use. If inhaled – remove to fresh air. Seek medical attention if systems develop and persist. In case of eye contact – Hold eyes open, flush with water for at least 15 minutes. Seek medical attention if irritation develops and persists. Skin contact – wash skin with plenty of water, while removing contaminated clothing and shoes. Wash contaminated clothing before re-use. Seek medical attention if skin irritation develops and persists. If Swallowed – DO NOT INDUCE VOMITTING. Rinse mouth, give small quantities of water. Seek medical attention if symptoms develop and persists.

For further information and advice regarding transportation, handling, storage and disposal of chemical products, users should refer to the actual Material Safety Data Sheet, which contains physical, ecological, toxicological, and other safety related data. It is highly recommended to read the actual Material Safety Data Sheet before using the product.
